We are proud to have received Reviewed Status in the Community Foundation's knowledge base!

Our goal is to:

Serve as a resource for parenting information

Create learning opportunities to help parents support their child's learning and well being

Provide workshops, support groups and training sessions that help increase parental involvement

Provide a link between the home, school and local community by establishing a pathway for successful parenting

- All programs and resources will be provided on this site to help parents get support in ways that best suit them – e.g. books, magazine articles, help lines, on-line forums/social networking, and You Tube videos.
- Resources will include but are not limited to the following areas:
  - Academics (Preschool-school to college)
  - Child care
  - Family leisure time
  - Nutrition
  - Safety
  - Discipline
  - Special educational needs
- All resource materials will be delivered on-line and through a new generation of social networking, workshops and help lines.
- Particular attention will be aimed at those who don't usually access support, including: fathers as well as mothers, grandparents, young adults, parents of teenagers, adoptive parents and caregivers. Information will be made available to you in a non-threatening way and in a manner that you would like to receive this support. (E-mail, blogging, You Tube, Twitter, direct mail, help lines, etc.)
- A Champion Parenting Directory will soon be made available on this site. This parent directory will list all local services and contact information for families, along with help lines to meet parenting challenges when they need them.

This champion style parenting movement will embrace parenting education as being a top priority at our local and state level. Every child deserves a chance to succeed and become a productive member of our community. This is the challenge that Champion Parenting, Inc. will embrace!
